PERMANENT STUCCO WASH,
WITHOUT SIZE OR OTHER OBJECTIONABLE INGREDIENT.

As used at St. George's Hospital, Hyde Park Corner.

JOHNS and COLBORNE'S PATENT DURABLE STUCCO WASH is now in use in the metropolis and the country generally, and is universally admired for its beauty, durability, and economy. It is a Stucco Colour, but may be used to any chosen shade. JOHNS and COLBORNE'S WASH OFF—is perfectly dry in a few hours, and lasting in colour and texture unchanged, adapted for Internal Decoration, Dados, Wainscoting, Surrounds, Ceilings, Friezes, &c. One coat will cover 200 square yards. It will keep good for years, and MAY BE EXPORTED WITH PERFECT SAFETY.

JOHNS and COLBORNE'S STUCCO CEMENT.—This cement, from the great reduction in price, and its suitableness for internal as well as external surfaces, places it above all other materials of its kind; it has no cements qualities; may be painted or papered in a few hours; never blisters, cracks, or repudiates; soon becomes as hard as stone; and may be cleaned with a brush and water.

The merits of the PAINT are well known for its applicability as a stucco work of all kinds, and external work generally. Numerous testimonials, prospectuses, and every information may be obtained, on application to the Sole Agent, PHILIP HAMLET, at the Warehouses, 19, Friar-road, Upper Thames-street. A liberal allowance to wholesale dealers.

GREAVES'S BLUE LIAS LIME.—The superior manner in which the above is ground renders it cheaper for concrete or stucco than any other lime or cement. The best lime for mortar it burnt on an improved principle, having scarcely any core. The satisfaction constantly expressed by Engineers, Architects, and Contractors, of the above, is its best proof.

G. BELL and Co., Steam Mills, 2, Wellington-street, Goswell-street, London.

PURE WHITE ZINC PAINT.—Manufactured from the Vieille Montagne Company's white oxide of zinc; perfectly free from all poisonous qualities, is unaffected by sea water, sulphuretted hydrogen, or any of the gases, and preserves its original colour; where white-lead paint will not. Also Grey Zinc Paint, strongly recommended for iron work.—Sold wholesale by JOHN WARNER and SONS, 8, Crescent, Jewin-street, London.

HUBBUCK'S PATENT WHITE ZINC PAINT.—This element white, the favourite pigment of the ancients, has been used by artists through successive generations, and is still known to the members of the Royal Academy under the old name of Permanent White.

Three years since the proprietors placed their manufacture on a large scale, and offered it at a price to compete with White Lead.

The successful introduction of this paint, and its confessed superiority over every other paint hitherto known, brought forward various imitations.

These inferior productions, frequently made from zinc ores, containing sulphur, lead, arsenic, and other deleterious material, while injurious to health, deficient in body, and retaining the preservative properties for which the original paint stands pre-eminent.

In justice to the proprietors these should not be confounded with the original, even though sold under the pretence that it is all the same.

HUBBUCK'S paint is entirely free from any injurious properties whatever, it is healthful in the manufacture, healthful in use, and beneficial to occupants of rooms newly painted with it.

As a guard to the painter against the substitution of the inferior paints, each cask is stamped

"HUBBUCK, LONDON PATENT,"

and if the cask has not been branded as marked, the reason is obvious. A Circular with full particulars may be had of THOMAS HUBBUCK and SON, Colour Manufacturers, opposite the London Docks.

PURE PATENT WHITE ZINC PAINT, from the Vieille Montagne Zinc Mining Company.—This Company having become Proprietors of all rights and profits of the late Patent White Zinc Company, in France and Belgium, is prepared to furnish, on a large scale, the WHITE OXIDE OF ZINC, in a pure state, and of a quality which can only be manufactured from the zinc from the mines in Belgium. Patent White Zinc Paint is superior, in every respect, to white lead paint. It is entirely free from all poisonous influence, and is unaffected by sea-water, sulphuretted hydrogen, or any gases; besides it preserves its original colour, which White Lead Paint does not. White Zinc Paint is the common name of those remains, invariably superseded by white lead, upon the house front, which, by the use of paint, produce paralysis, &c. &c., to which dangerous complaints the workmen, who use white zinc and use it, are subject, and to which persons in the inhabited newly-painted apartments are also liable. A spurious article having been introduced in the market, under the name of White Zinc Paint, the public is cautioned against it, because, when adulterated, it becomes a very inferior paint, instead of a first-rate one.—For further particulars and prospectuses, apply to M. H. P. SCHMOLL, General Agent for England and Scotland, at the Company's Offices, 19, Manchester-buildings, Westminster-bridge, and for supply of material and prices, at Messrs. CHAPMAN, DEVAUX and Co.'s, 68, King William-street, City.

TO the DEPOSITORS of MODELS in MACHINERY, FINE ARTS, &c., in the GREAT EXHIBITION.
ROYAL POLYTECHNIC INSTITUTION.

Gentlemen,—I beg leave to invite your attention to this Institution, which was incorporated by Royal Charter in 1839, one of the main purposes for which it was established was to exhibit to the public, by highly experimental demonstrations, the principles and advantages of useful and scientific inventions.

The Directors have desired me to say, that if you should feel disposed to deposit any articles in this Institution, and until arrangements can be here, every application will be immediately complied with, and if approved, will be received for that purpose, without any expense to you beyond carriage and fittings. A ticket for each may be attached to each article; and in case of sale no charge is made to either vendor or purchaser.—I have the honour to be, gentlemen, your obedient servant,

ROBT. L. LOSCOMBE, Secretary.

A MESSIEURS les EXPOSANTS ETRANGERS au PALAIS de CRISTAL.
INSTITUTION ROYALE POLYTECHNIQUE, LONDRES.

Messieurs.—Les Directeurs de l'Institution Royale Polytechnique m'ont prié d'offrir à Messieurs les Etrangers qui ont envoyé leurs produits à l'Exposition Universelle une place dans les salles de leur établissement, sans que ces expositions aient à détourner d'aucune façon que ce soit de transport et d'installation.

L'Institution Polytechnique, fondée en 1838 avec autorisation royale, se rapproche par ses constitutions et son importance des Conservatoires des Arts et Métiers de Paris. Elle a rencontré du public, tant par les récréations qui la signalent, que par la coopération d'hommes spéciaux qui tous les jours y donnent des cours qui popularisent les principes et les avantages de toutes les découvertes utiles, ainsi que les perfectionnements qui y sont apportés.

Au moyen de cette Exposition gratuite que les Directeurs de l'Etablissement mettent ainsi à leur disposition, il devra en résulter les résultats de tout leur passage. Messieurs les Exposants pourront obtenir de nombreux débouchés. Le prix pourra être indiqué sur les objets exposés et le marchand fera part aux personnes désireuses qui pourraient être faites par acte notarié dans le temps qu'ils resteront à l'Institution pour les intéressés, le Secrétaire.

ROBERT L. LOSCOMBE.

CLOSE of the GREAT EXHIBITION.—Parties about to REMOVE their Goods from the Great Exhibition Building to their part, are respectfully informed that very SUPERIOR ACCOMMODATION can be afforded them in that desirable locality Lower Grosvenor-street. Respectable, where the best of order and elegance shall prevail. Carpeted from to last square in 10 feet by 10 feet, have been erected for the purposes of a permanent Exhibition of Works of Art and Manufactures.—For particulars apply at the offices of Mr. J. P. HOPKINS, Architect, 30, Bedford-square.

GUTTA PERCHA TUBING.—May be heated for years, without injury and it is therefore valuable for conveying water, chemicals, &c. It is peculiarly valuable for liquid manure drain, and soil pipes. Being a non-conductor, it is not affected by the frost of winter or drought of summer, like metal or earthen. Its strength is extraordinary, the small half-inch diameter tubing having resisted a pressure of 1600 lbs. on the square inch, without bursting. The smaller sizes may be had in 100 feet, and the larger in 50 feet lengths. The joints are easily made. As a conductor of sound it is most valuable for conveying messages in tubes of halls. Every variety of articles manufactured by the GUTTA PERCHA COMPANY, Patentees, 18, Wharf-road, City-road, London; and sold by their wholesale dealers.

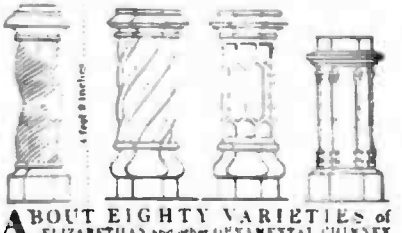
PATENT VULCANIZED INDIA- RUBBER TUBING, for Gas Fittings, Chemical Purposes, Fire Engines, Manure Pumps, &c.—JAMES LYNE HANCOCK, sole Manufacturer and Licensee, Goswell-street, Goswell-road, London, begs to invite the attention of Architects, Builders, Engineers, and the trade generally, to the Vulcanized India-Rubber Tubing, which is now manufactured from ¼ inch bore and upwards, in lengths from 20 to 100 feet, and of various strengths, suitable to the purposes for which it is applied. VULCANIZED HOSE for FIRE ENGINES, LIQUID MANURE, and for conveying HOT WATER for BATHS, DWELLING HOUSES, and HOT BEERS, manufactured to resist great pressure of any length and size to order.

, Testimonials may be had on application to the Manufactory.

N.B. VULCANIZED WASHERS and SHEET RUBBER for Steam and Hot Water Pipes, and Packings for Pistons and Gland-Rods of Steam Engines cut and made to order.

PAINTERS' BRUSHES, manufactured expressly for the use of painters and builders of the best known workmen, warranted. Prices and every particulars on application to the manufacturer, J. B. TYLER, 25, Great Lever-street, Bolton-le-Moors, London. "No Painters are genuine unless stamped "J. B. TYLER, London."

GREAT EXHIBITION.—HURWOOD'S PATENT APPARATUS for Hoisting and Fastening Windows and Ventilators (Class VII. Art. 2). Architects, Builders, and Shipwrights are requested to examine the models, windows, ship ventilators, &c., exhibited as above, showing some of the modes of applying the chain and rib-rail in addition to many of the other kinds of window and ventilators. This invention is used for all the ventilators of the Great Exhibition Building.—Further information may be obtained by applying to the inventor of the above claim, and illustrated catalogues will be forwarded per post free upon twelve penny stamps being remitted to the patentee, Ipswich, Suffolk.



ABOUT EIGHTY VARIETIES of ELIZABETHAN and other ORNAMENTAL CHIMNEY TOPS, may be procured of J. SELLEY, Artificial Stone Manufacturer, New-road, Kentish-park.

, A pattern-sheet will be sent to any one wishing it.

A GUARANTEED REMEDY for DOWN- DRAUGHTS, at Kersal, Eq. to Soot, other Chimneys, Soot, Damp Air, &c.—W. POPE and SON, 3, and 31, Edgware-road, beg to call the attention of the public to their All-right Chimney-Valve, as a guaranteed remedy for those persons troubled with smoky chimneys, and great economy in point of fuel, a return of disagreement of all to chimneys which used it one. Few there are who have not suffered more or less from the above evils, much to the trouble resulting from other chimney-tops having been so often and deservedly in the patents, including Parkinson &c. being of proved and fair-test merit for all dainty and tasty, &c. These Valves may be seen in any Brothers or other, without any detriment to the sale of the fire when in use, and are so extremely simple that they cannot get out of order, and are very moderate in cost. From 10s. to 30s. according to size. W. POPE and SON, Ironmongers, Founders, Engineers, &c., 3, and 31, Edgware-road.—Address letters to the trade.
